

As the Network Vice President of Planning and Construction Management of an almost \$3bil hospital network, that includes 12 campuses and 13 hospitals, Lee has overseen \$2+-billion worth of construction over the last 10 fiscal years. Serving in this capacity, Lee is able to apply his 45 years of Land Development, Construction Management and General Contracting experience on the owner's behalf. This knowledge has proven to be an invaluable asset, as it relates to real estate development, project construction, costs, scheduling and contract negotiation.

As an employee of some of the most respected Development and Construction Management firms in the tri-state area, Lee has managed and developed projects both in the field and at the executive level for some of the most prestigious and successful organizations in the Mid-Atlantic region. Some of these clients include, Children's Hospital of Philadelphia, Cooper University Hospital, Hahnemann University Hospital, Medical College of Pennsylvania, Bristol-Myers Squibb, Princeton University, Lockheed Martin, Prudential Insurance, State Farm Insurance, Sheraton Hotels, Wal-Mart Corporation, Lowe's Home Improvement, Home Depot, Sears, and the Mobil Oil Corporation. These clients' projects have ranged in size from \$1 mil - \$150mil.

Lee has been featured in American Builders Quarterly Magazine and North American Builders Magazine
